ST LUKES ENVIRONMENTAL PROTECTION SOCIETY

Annual General Meeting & Presentation about the Central Interceptor and Its Effects on Auckland, Meola Creek and Surrounding Areas

ALL WELCOME

After the AGM, Mike Sheffield of Watercare Services will give a presentation on the progress of the Central Interceptor. Watercare has planned the new Central Interceptor as a solution to the sewerage problems in Auckland. Mike will cover the overall plan as well as its effects on Meola Creek and our surrounding areas.

This is a large project, and community input is invited.

Please come along and have your say.

Where: Historic Alberton House, 100 Mt Albert Rd
When: 7pm, Thursday, 14 June 2012
